

interact Pro

Your simple way to connected lighting

A big opportunity

Be at the forefront of a lighting revolution with Interact Pro.

47%

savings

lighting-energy savings come from networked systems

50%

connected

of commercial lighting will be connected within 10 years

\$21

billion

global market value of lighting systems by 2022

A bright idea

Through connected lighting, software and real-time data, the potential offered by Interact Pro is limitless.

- **It's Secure and Robust** – Zigbee 3.0 mesh network architecture with an added layer of distributed intelligence
- **It's Compliant** – Qualifies for DLC networked lighting controls per ASHRAE
- **It allows Big Savings** – on time, material and energy costs with a potential of up to 79% savings (according to study 'Pelling marketing by Design*')
- **It works everywhere**

Office and School

Industry

Retail

Parking

Get connected in 5 simple steps

With our easy 5-step process, the cloud-based Interact Pro connected lighting system is ready to provide energy savings, insightful data and much more.

Interact Ready Lighting Products

Interact pro adds a new level of connected lighting success to your business with the broadest portfolio of luminaires, retrofit kits and lamps. Introduce customers to the power of IoT possibilities and simplify your work at the same time. Take on more projects, complete them faster and create partnerships that last. That's Interact Pro.

- Day-Brite CFI FluxPanel
- Day-Brite CFI FluxGrid
- Day-Brite CFI EvoGrid
- Day-Brite CFI ClearAppeal & SoftTrace Gen 2
- Ledalite SilkSpace

Lamps and Retrofit Kits

- Philips EvoKit
- Philips MasterConnect LEDTube InstantFit T8

Suspended

- Ledalite BoldPlay
- Ledalite FloatPlane
- Ledalite ModiFly
- Ledalite Sona
- Ledalite TruGroove

Surface

- Day-Brite CFI FluxStream
- Day-Brite CFI SlimLux

Downlights

- Lightolier Calculite
- Lightolier EasyLyte
- Lightolier LyteProfile

Sensor and Switch

- Philips Occupancy Sensor, wireless
- Philips Day-Occ Sensor, wireless
- Philips GreenPower Wireless Dimmer Switch

What's in it for you

- It's easy to install**
Interact Pro doesn't require extra cabling or IT support. It's a truly wireless system which can be commissioned via an app on site, or remotely from the comfort of your office desktop.
- It helps you strengthen relationships with your customers**
The Interact Pro dashboard provides real-time visibility to energy usage, and lighting system status with alerts for in-field maintenance issues.

This lets you take a proactive approach to providing data-driven optimization for your customer.
- It brings out the pro in you**
Identify and respond to performance or maintenance issues in a timely fashion, through software alerts, and via Philips Service Tag feature.

Chat with your local Signify Sales Representative to become an Interact Pro Certified Installer and watch your business grow.
